Summary Care Record
Your summary care record is an electronic record of important information about your health and is available to healthcare staff providing your NHS care in England, for example in A&E. This means if you ever become ill and need urgent or out of hours treatment outside of the surgery the clinicians that treat you will have immediate access to important healthcare information about you. The information included in your summary care record is your current medication, allergies you suffer from and any bad reactions to medications you have experienced.
If you do not want this to happen then please ask reception for an Opt Out Form
